INSECT DIAGNOSIS REPORT

LAB NUMBER: H0365

SAMPLE ID: Merri 4-5-11

DIAGNOSIS: No insects or mites were observed upon microscopic examination of the mix.

LAB NUMBER: H0366

SAMPLE ID: Merri 7-12-11

DIAGNOSIS: No insects or mites were observed upon microscopic examination of the mix.

Read all labels and carefully follow their directions. Test recommended fungicides on a small group of plants first to observe for possible phytotoxicity unless your previous experience has shown the chemical to be safe under your conditions on this particular plant. Follow re-entry and protective clothing requirements on label.

Our reports and letters are for the exclusive and confidential use of our clients, and may not be reproduced whole or in part, nor may any reference be made to the work, the results or the company in any advertising, news release or other public announcements without obtaining our prior written authorization. Recommendations are based on research and experience. The success of the recommendations and crop success is neither warranted nor implied, and the liability in any event shall be limited to three times the cost of this analysis. Apply fertilizers carefully to avoid groundwater pollution.
